TITLE : MODULE PART

ABSTRACT : PROBLEM TO BE SOLVED: To provide a module part, wherein sufficient ground connection is possible between a module part and a mother board, related to a module part used for a high-frequency part of a radio communication device.

SOLUTION: When a module board 11 is mounted on a motherboard 13, second projections 12a', 12b', and 12c' provided on a shield case 12 are inserted in through-holes 13a, 13b, and 13c connected electrically to a ground of the motherboard 13 for electrical connection, thus a firmer and surer ground connection is established.
